SKILLS

Frontend : Nextjs , Redux , React , Typescript , JavaScript , Ant Design , Next-Auth , Firebase, Tailwind.
Backend : Node JS , Express , Prisma , Mongoose , JWT, Payment and Delivery API intregation.
Database: PostgreSQL ,MySQL MongoDB.
Tools : Trello , Github , Figma , Postman, Vercel , Railway.
Familiar : Redis, Sass .

PROFESSIONAL EXPERIENCE

- Full Stack Developer** (Dot BD Solutions, March 2024- May 2024) **Dhaka, Bangladesh – Onsite**
 - DashBoard Manage & API Integration** : Developed Book-store *multi-vendor* application in Nextjs and Prisma Here I have handled the front end and back end, I have done advanced work on the dashboard and this is a different challenge for me I have found many errors and I have fixed.
 - Large Application Development**: Developed on complex systems and *multi-vendor* high-performance solutions. Proactively resolved complex, real-world issues with innovative solutions, significantly enhancing overall user experience and operational efficiency.
 - Strategic Problem Solving & Custom Image Processing** : Facilitated improved team collaboration, driving success in over full-stack applications. Implemented secure image custom server URL processing in the backend using **Multer, AWS, and Cloudinary**.
- Front-end Developer** (Vlaunchu, Jan 2023- Feb 2023) **India,Bommasandra – Remote intern**
 - Front-End & API Integration** : It's a job portal application and it's developed with React and MongoDB
 - Innovative Design Implementation**: Developed unique, responsive designs from **Figma**, crafting reusable components for superior user experiences.
 - Strategic Frontend Development** : Executed meticulous project development with clear code, aligning *pixel-perfect* designs to meet objectives.

PROJECTS

- Hot-Tube-Cinema** (12 Jun 2023- 22 Jun 2023) [Live Link](#) | [Client-Repo](#) | [Server-Repo](#)

Project Overviews:

 - This is a cinema website, Here are different types of movie , Next.js and Redux. Redefined user experiences through seamless user registration, movie search, and add processes.
 - There are different TV shows and movies here and you can watch as much data as.
 - Utilized Mongoose for data handling, ensuring optimal performance. Resulted in a project that not only met but exceeded industry standards for service

Technology: ReactJS, Redux-Toolkit, SCSS, Firebase, Express, Mongoose, NODEJS, JWT, Netlity.
- Plumbing service** (15 Nov 2023- 2 Dec 2023) [Live Link](#) | [Client-Repo](#) | [Server-Repo](#)

Project Overviews:

 - Enhance Plunbing service with **16** powerful CRUD features with control, optimize and streamline.
 - There are many types of services like pipe fitting gas service anyone can avail services from here and all they have to do is to register.
 - Roles are managed here like user, admin and super admin Super-Admin can manage all parts and also manage admins, super-admin can add admin, super-admin can make a user admin and make an admin can users

Technology: Typescript, NextJS, Redux-Toolkit, Tailwind-CSS, PostgreSQL, ExpressJS, Prisma, JWT,Railway.
